MEMORANDUM FOR: Director of Special Activities
SUBJECT: Personnel Study

1. During the recent Bureau of the Budget hearings, questions were raised concerning the allocation of OSA personnel to the various programs supported by that Office. At a hearing conducted in mid-October 1967, Mr. John Hurley, BOB Examiner, commented "What happens if we go back to the pre-OXCART days"?

2. With the interest being expressed by the Bureau of the Budget regarding this subject, it is now timely for OSA to conduct a study to compare the program requirements today (without OXCART) with the program requirements that existed in the pre-OXCART period to determine the reason for any difference in requirements, i.e., personnel, resources, etc.

3. The Bureau of the Budget have indicated that their examiners will be pursuing this issue. DDS&T agrees that this study will provide the necessary information to enable us to properly defend our position. I would appreciate this information by 8 December.
